2024 Designers Edition  
The Photographic Work of Mark Polege

# Catching Light

## 2024 Designers Edition

My name is Mark Polege and I am a 25-year veteran of creative and professional photography. I spent my first 6 years perfecting my exposure and composition on black & white film on the back roads of North Dakota. When I returned to the St.Louis region I focused my expertise in color, digital photography, and photojournalism. Over the past 15 years I have given special focus in the areas of architecture and low-light photography.

I was frequently published in the *Edwardsville Intelligencer* newspaper from 2010-2013. Two of my photographs were featured at the Sheldon Art Galleries in 2014. One photograph, "*City Stream*" was chosen among the TOP 250, and another photograph, "*Moon Over St.Louis*" was chosen among the TOP 100, celebrating the 250th Anniversary of the City of St.Louis.

Inside "*Catching Light: 2024 Designers Edition*" I have gathered a collection of my photographic work in the areas of architecture, automotive, still life, low light, and scenic photography. With each sample of my work I have included the color codes for CYMK and RGB of the two most prominent colors appearing in the photograph. This is for the purpose of streamlining the process of color matching my photography with design projects. I welcome all comments and feedback on my photographic work and how I might better meet your needs for artwork in the future. You can reach me on my website at: **CatchingLight.us** or **PhotographyofMarkPolege.com**.
